

Response to: Addiction in Cinema

Write a minimum of a 300-word response.

Choose an addiction and research it using the Fletcher Library databases. Specifically, focus on how the media, film, television, etc. address this type of addiction. If the addiction is rarely illustrated in the media, discuss why? Is there a stigma attached? Is this type of addiction glamorized in the media, is it ignored, is it minimized, why or why not?

You can reference any films, television shows, commercials, music, etc. in this assignment.
