

## Assignment: Cross-Curriculum Source Analysis #2

Published

Edit

For this research/writing assignment, you'll look up examples/works of art from pop culture that illustrate your chosen political/social issue. Choose a minimum of 4 examples, each from a different medium/area of pop culture ([again, refer to the master list, including film, music, literature, performance art, cultural events/phenomena, etc.](#) Also, look back at the [Page on graffiti art--those works covered a wide array of socio-political issues, both in the United States and worldwide](#)).

While you'll eventually narrow your focus to a particular aspect/performance/work of pop culture, for this assignment, I want you to look at your political-social issue from a variety of arts perspectives. Then, write about the experience for each. Did considering your issue from a different perspective help you see the issue differently? Or understand it more thoroughly? If you didn't find the exercise productive or helpful, write about that too.

Write a minimum of 500-words in response.
